- Python
- Java

OBJECTIVE

Creative and self-driven web developer seeking to contribute a company as an intern with my qualifications in modern front-end programming, analytical problem-solving, and collaboration. With my growing set of development skills and passion for web development and software engineering, I aspire to expand my knowledge in the ever-changing field of software development.

EXPERIENCE

Chief Technology Officer

Cartana Inc. | Orange, CA | August 2020 - Present

- Assisted in building a web browser extension by developing the user interface in order to implement existing backend APIs.
- Developed and architected the company website's front-end using Gatsby.js to advance client engagement.
- Directed and monitored the website's content delivery network using AWS CloudFront.
- Created detailed high-fidelity mockups for an updated company website in Sketch that improved overall user experience.

Front-End Web Developer Intern

Cartana Inc. | Orange, CA | June 2020 - August 2020

- Developed and designed the company website using both front-end programming and WordPress.
- Created detailed high-fidelity mockups for both the extension and company website in Sketch.

Front-End Web Developer & Co-Founder

Octagons | US (General) | May 2020 - August 2020

- After jointly establishing the company, developed and managed the React.js company website, allowing the team to engage with clients and formulate solutions based on their needs.
- Performed creative design tasks in collaboration with other team members including website wireframing, high-fidelity mockups, and graphic design to support various local businesses in need.

Coding Instructor Intern

Coding Minds Academy | Arcadia, CA | May 2020 - August 2020

- As an instructor effectively taught a total of 50 hours of engaging K-12 courses covering CSS, React.js, JavaScript, and Python to introduce kids to programming.
- Developed detailed 8-week curricula for courses on CSS, React.js, and JavaScript to expand the company's available course offerings.
